Location: Kampala, Uganda (Open to Remote Work)

Professional Summary

I'm a full-stack developer with practical experience in both frontend and backend development. I build responsive and user-friendly applications using **React.js**, **Express.js**, **Django**, **SQL**, and **MongoDB**. Skilled in designing efficient APIs, maintaining scalable systems, and collaborating in Agile environments to deliver reliable digital solutions.

Technical Skills

Here are some of the tools and technologies I've been working with recently:

Frontend: React, HTML5, CSS3, JavaScript (ES6+), TypeScript, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, Django, RESTful APIs

Database: SQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Postman, Linux

AI & Productivity Tools: Claude Code, Codex

Projects

DocumentCraft — <https://acesmovers.netlify.app/>

Access: admin@am.com | Password: Admin123!

A comprehensive moving business management platform for quotations, receipts, and payment tracking. Includes cross-device draft sync, automated PDF generation, digital signatures, and role-based admin controls for streamlined relocation operations.

Stack: React.js, Express.js, MongoDB, TailwindCSS

ClassConnect — <https://eclassconnect.netlify.app/>

Access: admin@cc.com | Password: pass1234

An education management system connecting teachers and students. Supports real-time assignments, grading, and notifications with secure user authentication.

Stack: React.js, Node.js, Express.js, MongoDB

QuickMart — <https://gm-client.netlify.app/>

Access: admin@gm.io | Password: test1234

A full e-commerce platform with secure authentication, payment integration, and admin tools. Features image uploads and role-based access for a seamless shopping experience.

Stack: React.js, Express.js, MongoDB, TailwindCSS

Natours — <https://natours-jeii.onrender.com/>

Access: admin@na.io | Password: test1234

A complete tour-booking web app with secure authentication, email password reset, file uploads, and payment processing. Implements advanced security against XSS and CSRF attacks.

Stack: Node.js, Express.js, MongoDB, Pug templates

Professional Experience

React Developer (SharePoint SPFx) | M365Connect, Remote

July 2025 – October 2025

- Developed and maintained frontend applications (e.g., *Manatal Shortlisting LLM*, *Work Tracker App*) using React, TypeScript, and Tailwind CSS.
- Conducted code reviews and implemented bug fixes to improve maintainability and performance.
- Introduced Prettier, ESLint, and Husky for consistent formatting, linting, and safe-commit workflows.
- Collaborated within Agile teams of UI/UX designers and backend engineers to deliver integrated solutions.
- Created structured JSON data for backend API integration.
- Leveraged AI coding tools (Claude Code, GitHub Copilot) to enhance workflow efficiency.

- Participated in developer recruitment and onboarding activities.
-

Field Technician | *SIMBA Fiber Africa, Kampala*

February 2025 – June 2025

- Provided LAN/WAN troubleshooting and router configuration support.
 - Assisted clients with internet setup and device connectivity.
-

Frontend Developer | *Cognosphere Dynamics, Onsite*

July 2024 – February 2025

- Built and maintained web applications including *Gitcash*, *GoLive*, and *YoDegree*.
 - Implemented responsive user interfaces using HTML, CSS, JavaScript, and React.js.
 - Collaborated with backend and mobile teams to integrate REST APIs and improve cross-platform consistency.
 - Delivered optimized frontend performance for high-traffic applications.
-

Education

Bachelor of Science in Computer Engineering — *ISBAT University, Kampala*

2021 – 2024

Uganda Advanced Certificate of Education (UACE) — *Seroma Christian High School, Mukono*

2018 – 2019

Achievements

- Built and deployed 4+ production-ready web platforms with complete authentication and admin management.
 - Recognized for improving frontend load performance and implementing secure authentication flows.
 - Successfully collaborated on remote international teams using Agile methodologies.
-
