About Me

I am a skilled full-stack developer proficient in Node.js, Express.js PostgreSQL, React.js, JavaScript, and PHP. I specialize in building efficient, scalable, and user-friendly web applications, with a focus on backend development, database management, and creating responsive user interfaces.

Experience

Frontend Web developer | August 2024 – October 2024

Cognosphere Dynamics - <https://cognospheredynamics.com>

Roles

- Built responsive, user-friendly websites using HTML, CSS, JavaScript, React.js and Bootstrap.
- Integrated Frontend Logics to backend systems to implement features such as payment processing, user authentications, registration and more.
- Debugging and troubleshoot technical issues in the code base.
- Writing clean and maintainable code for future use
- Collaborated with cross-functional teams to deliver high-quality projects

Intern | May 2024– October 2024

Cognosphere Dynamics - <https://cognospheredynamics.com>

Roles

- Assisted in designing and developing web-based applications with senior developers.
- Gained hands-on experience in HTML, CSS, JavaScript, and API integration.
- Working together with other interns to optimize codebases, improving performance and scalability

Mathematics and Physics Teaching Assistant | March 2021– June 2021

Amuru High School – Amuru

Roles

- Provided academic support to Physics and Mathematics departments.
- Tutored and motivated students in core subjects, improving overall performance.
- Organized holiday teaching sessions and acted as a student academic consultant.

Projects

ClassLink | Personal Project – Ongoing.

A platform for managing lessons, exams, and assignments for educational purposes

Technologies : React.js, Node.js, Express.js, PostgreSQL

Access: Name: Platform Admin, Password: admin

Live Demo: <https://bongominerickjuma.github.io/classLink/>

React Repository: <https://github.com/BongominErickJuma/classLink>

Express.js Repository: <https://github.com/BongominErickJuma/nexaServer>

More Projects visit my portfolio : <https://bongominerickjuma.github.io/portfoliona/>

GoLive | Cognosphere Dynamics.

Visit: <https://go-live.online/>

A streaming platform for Radio and TV stations using AI Technology.

GoLive Dashboards | Cognosphere Dynamics.

Visit : <https://cast.go-live.online/>

The Dashboard for The Members who have their TV and Radio Stations in GoLive.

Twogere Dashboard | Cognosphere Dynamics.

Visit: <https://twogere.cognospheredynamics.com/>

The Dashboard for the members Using twogere products. Helps to manage Accounts, Administrators, Subscriptions, Job Opportunities and More.

Encode | Cognosphere Dynamics

Visit: <https://encode.cognospheredynamics.com/>

The Website helps invite people for annual Encode program, and gives details about Encode

Gitcash | Cognosphere Dynamics

Visit: <https://www.git-cash.com/>

This is the website undergoing development. Users will contribute to open source repositories for money rather than for free.

Education

February 2021– December 2024	Bachelor of Computer Engineering ISBAT University Kampala, Uganda ➤ Knowledge and skills from course units: Engineering Mathematics 1,2,3 and 4, Embedded Systems Design, Database Systems Design, Electricity and magnetism, Digital Signal Processing, Control Systems, Data communication and Networks, Optical Fiber Communications, structured (C) and Object Oriented (C#) Programming, Systems Programming, Mobile Computing and web-based systems, Data Structures and Algorithms, and more
Mar 2018 – Dec 2019	Seroma Christian High School – UACE Certificate
Feb 2013 – Nov 2017	Pope John Paul II Collage – UCE Certificate

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, C, C#

Front-end Development: HTML5, CSS3, JavaScript (ES6+), React, Bootstrap, EJS (Embedded JavaScript), Material-UI, PHP

Back-End Development: Node.js and Express.js, RESTfull APIs

Databases: PostgreSQL, MySQL

Security: JWT, Passport, OAuth.

Version Control: Git, GitHub
